## AD100 2023: Morphogenesis

11 April 2023

Shifa Siddiqui

Sonali Rastogi and Manit Rastogi

**Project in Focus:** Sustainability is at the heart of this Ahmedabad residence (*pictured*). The house promotes environmental design through well-ventilated spaces, landscaped gardens, a rainwater harvesting tank, a kitchen garden, a waste management composting facility, and solar panelling.

Ishita Sitwala

**Recent Projects:** An office space on the outskirts of Ahmedabad, with a footprint strongly influenced by the region's hot and dry climate and its vibrant architectural history and craft traditions; the redevelopment of an abandoned warehouse in New Delhi into a five-storey workspace for the Morphogenesis team; a private residence in Ahmedabad designed to highlight a double-height courtyard on the ground floor featuring a kamini tree.
